

## 4 Sequencers

Sequencers are words that we use to describe the order in which things are done. In Exercise 3, you completed the dialogue with a few simple sequencers. Here's a more complete list.

- First, ... / First of all, ...
- Next, ...
- Then, ...
- After that, ...
- Following that, ...
- Finally, ... / At the end, ...
- Before ... / After ...

Now study the process of making wine below and complete the description on the next page with appropriate sequencers.
